Our Purpose

Gamers have yet to harness the opportunity of gaming and fitness. The pandemic sent societies into lockdown, which significantly increased the number of gamers worldwide. Statistics show that people increased the amount of time spent gaming by [39% during the lockdown](#).

Obesity is recognized as a worldwide epidemic. It is estimated that [42.4%](#) of the population suffers from obesity. With [obesity rates](#) skyrocketing, Gamers are directly affected and at risk for many more mental and physical challenges.

It is not uncommon for Gamers to suffer from low self-esteem and low confidence. Many also live a sedentary lifestyle, suffer from chronic aches and pains, and have a poor social life. These things directly impact their health, relationships, work and impede their personal growth.

The problem is most gamers don't have a proven system and the proper guidance that can effectively teach them how to level up various areas of their lives just like they would in a game.

With the growing popularity of gaming, there's a massive need to help Gamers avoid the harmful consequences of a sedentary and unhealthy lifestyle.

Gamers already have the foundational skill sets needed to live a healthy life. These skills include motivation, commitment, discipline, focus, and awareness. They are just a simple mindset shift away from transforming their lives...

Our Mission

“Our mission is to help Casual & Professional Gamers Transform Fitness into a Role-Playing Game (RPG) Adventure by providing a premium quality coaching platform that intertwines the best qualities of Certified Pain-Free Training, Fantasy Role-Playing Games, Certified Nutrition Coaching, Online Gaming Communities, and Certified Mental Performance Coaching to transform their lives Mentally, Physically, & Nutritionally.”

After mentoring Gamers of all ages, here is what we know for sure...

You want to have the freedom to pursue any goal that you desire and the flexibility to choose the specific areas of your life that you want to improve in as if you are the hero of your own Role-Playing Game.

Achieving your fitness goals WITHOUT knowing if you're following the right strategy, feeling pain, running into plateaus, and spending hours in the gym doing cardio or trying to lift weights seems impossible.

Most Gamers haven't figured out how to go from Inactive, Unfit, and Unhealthy to feeling Strong, Confident, Healthy, and Powerful because they haven't applied the same systems in Role-Playing Games to create an individualized training adventure for themselves outside the virtual world.

By incorporating simple Role-Playing Game mechanics such as Character Customization, Levels, Progression, Quests, Skills, Rewards/Loot and Community, creates a unique individualized approach to unlocking Gamers next mental, physical, and nutritional level.

Our Partners

PPSC or the Pain-Free Performance Specialist Organization have created an integrated prevention-based system adopted by the top brands and fitness professionals in the world to elevate their client's training, increase their results, and put their client's health FIRST! We provide FREE education from PPSC to all current and future Wizards (Coaches) at INFITNITE to sharpen their skills to properly screen, assess, and evaluate every single one of Infitnite's Warriors, so that they may further individualize programming for that Warriors needs.

Razer is the world's leading lifestyle brand for gamers. With a fan base that spans every continent, the company has designed and built the world's largest gamer-focused ecosystem of hardware, software, and services. We want to provide premium lifestyle peripherals like Razer's lineup of gaming chairs to our Warriors at INFITNITE to improve their overall wellbeing.

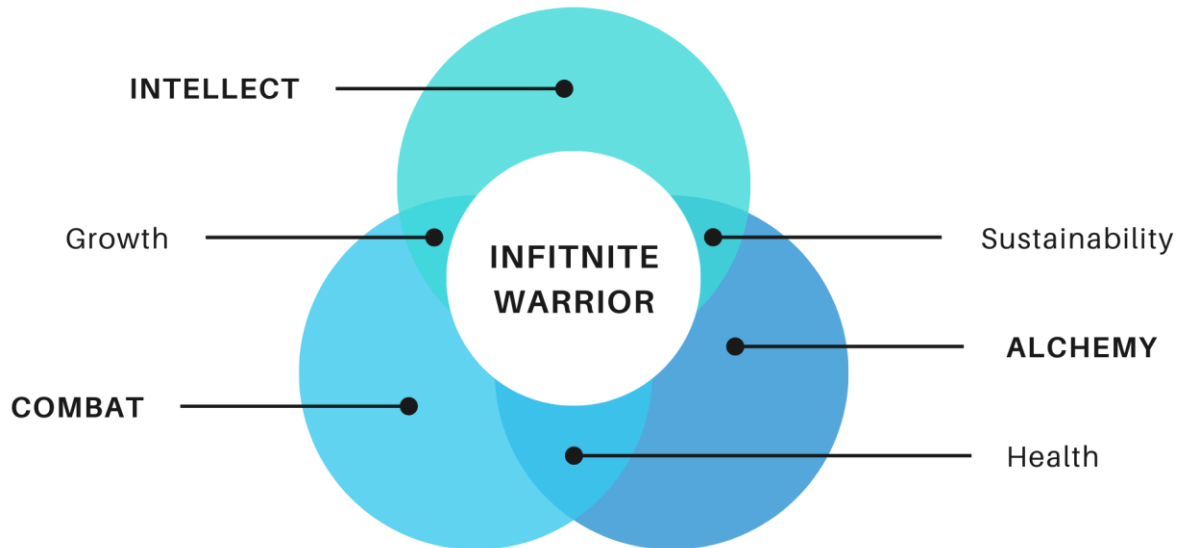

[Legion Athletics](#) is the #1 all-natural sports nutrition brand in the world catering to professional and amateur athletes selling over 2 million products to over 300,000 customers. Legion provides a variety of nutritional supplements including pre- and post-workout fuel, protein powders and bars, superfood boosters and sleep aids. INFITNITE equips our Warriors with the supplements that will help them maintain weight loss, recover faster, build more muscle, and improve their health.

[BlenderBottle](#) is a company that manufactures shake bottles for mixing and whisking on the go with products in more than 60,000 retail stores and 90 countries. Now we're working together to bring our Warriors custom weapons on their journey with the highest quality materials, one-of-a-kind design, and patented functionality.

[Hyperice](#) is a vibrational fitness technology company who's mission is to help everyone on Earth move better, live better and be better. Their suite of products helps to relieve tension, unlock sore muscles, and prime your body and mind to be at their best, so you can always find the simple fun in doing what you love to do, more. INFITNITE shares the same belief as Hyperice that quality of life is intimately connected to movement. We provide Hyperice's innovative recovery technology exclusively to our Infitnite Warriors!

Our Philosophy

Master the 3 Warrior Attributes to unlock the Warrior power inside you:

COMBAT, ALCHEMY, & INTELLECT.

Each **Warrior Avatar** has strengths/weaknesses and if you implement an intelligent training strategy, then you can progressively improve the skills required to create long term **Growth, Health, and Sustainability.**

We create a unique individualized approach to enhancing Warriors Attributes by incorporating Role-Playing Game core mechanics such as a **Skill System & Quest System.**

Quest Rewards
